AUTHENTICITY CHECK

Through these four mechanisms of authenticity, we provide the user a secure representation that ensures and certifies the quality of our products.

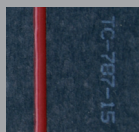

TC PRO LABEL,
used to identify visually the new ILLINOIS product.

LOGOTYPE
As identification of ILLINOIS's genuine quality.

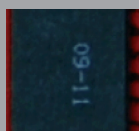

ENCODING
Correlative internal numbering.

SECURITY HOLOGRAM,
proof against removal attempt: adhesive trade mark with the word "VOID" on it.

LOT NUMBER,
allows to determine the route of the product since its manufacture to the point of sales.

ILLINOIS: Know-How in sealings. Standard TC PRO® cylinder head gaskets.

Each explosion engine requires a specific concept of gasket. In order to attend to the specific requirements that display the engines of the replacement market, the Juntas Illinois Engineering and Developing Department did an intense job to offer you what we present today as TC PRO®: standard gaskets of diverse fiber compounds, produced with cutting-edge ecological materials made in Germany and USA.
